CRTM-1218-LW	Convex Acrylic Roundtangular Mirror - Indoor Lightweight	12" x 18" approx.
CRTM-1524-LW	Convex Acrylic Roundtangular Mirror - Indoor Lightweight	15" x 24" approx.
CRTM-1826-LW	Convex Acrylic Roundtangular Mirror - Indoor Lightweight	18" x 26" approx.
CRTM-1218	Convex Acrylic Roundtangular Mirror - Outdoor Heavyduty	12" x 18" approx.
CRTM-1524	Convex Acrylic Roundtangular Mirror - Outdoor Heavyduty	15" x 24" approx.
CRTM-1826	Convex Acrylic Roundtangular Mirror - Outdoor Heavyduty	18" x 26" approx.

Our line of Lightweight/Heavyduty Roundtangular Mirrors are designed to fit into lower clearance areas that still need a view comparable to our standard convex mirrors. These mirrors are used in parking garages, loading areas, retail stores, industrial applications and blind spots near machinery. The Lightweight mirrors come with no frame and is lighter in weight. They have two screws which hold the mounting plate for the back bracket visible on the front surface. The Heavyduty mirrors have a hardback and re-enforced vinyl trim which protects this mirror from the elements. Fasteners are not included.

High quality mirrors with shatterproof acrylic lenses and available in indoor lightweight or heavyduty models.

Mirrors are lightweight, fade-proof and virtually unbreakable with top-quality silvering and near-perfect convexing which affords the widest angle of vision.

Lighter and brighter than glass. Each mirror individually packaged, complete with adjustable chrome-plated single mounting bracket.

Also excellent as safety mirrors in preventing industrial intersection accidents.

Key Features:

- **Virtually unbreakable**
The potential danger and liability of having treacherous glass overhead is eliminated.
- **20% Brighter**
Special mirroring techniques provide a 20% brighter image than glass.
- **Less Distortion**
Special forming techniques provide an optical image that is superior to glass.
- **Longer Lasting**
Made from high quality Acrylic and will not discolour over time as glass frequently does.
- **Lighter Weight**
As Acrylic is much lighter than glass, it is easier to handle and install.
- **Economical**
Less expensive and eliminates the high cost of replacing broken glass mirrors.
